

Yining Municipal People's Government and International Academician Association

From February 12 to 14, Li Wei, vice governor of Yili Prefecture People's Government and secretary of Yining Municipal Committee, led a party and government delegation to Beijing to carry out investment promotion and inspection activities, learn advanced experience and promote exchange and cooperation.

The delegation has come to Beijing Yihuatong Technology Co., Ltd, Huayi Qiming East, the International Academician Association headquarters, Jingdong Group and other places for inspection. Everywhere, delegation members listened carefully, looked carefully, communicated with the relevant responsible person in-depth, listened to the introduction, and held discussions on matters such as further deepening cooperation and speeding up project cooperation.

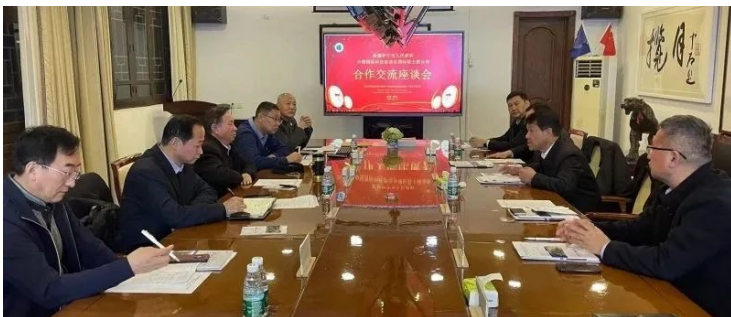

Ltd. is a high-tech enterprise engaged in the research, development, and industrialization of new energy transportation technology. The company has been focusing on the core technology research of new energy vehicles

Information dynamics

with fuel cell power systems as the core. It has made significant achievements in designing various types of new energy vehicles, power system research and development, electronic control system research and development, and the construction and operation of vehicle hydrogen filling stations. In the Zhangjiakou City Yihuatong Power production base, the delegation also saw the fuel-cell machine production line, production, and testing process.

During the visit, Li Wei said that through the visit, they had a further understanding and knowledge of the enterprise and could see the strength of the enterprise in terms of its technology, strategy and products. As a pioneer in the domestic hydrogen energy industry with leading technology and high market recognition, I hope both sides will strengthen the project docking and make efforts to clear the "obstacles" to ensure that the project will be landed, put into production and reach the effect

as early as possible.

After learning that Huayi Qiming Dongfang Nuan City Cultural Industry Cluster has a new era of cultural undertakings, cultural industry prosperity development team, innovation team, Etc., of which Huayi Brothers Star Theatre Good Life Complex is a model project of China's urban cultural complex in response to the Party Central Committee's "meeting the people's aspiration for a better life", positioning "new city living room" "new city public cultural service centre" "new city family one-stop good life complex" "new city culture tourism" "new city leisure resort" "new city theatre and film performance" "new city cultural landmark" of the Chinese modern cultural industry driven After the project, Li Wei said, Yining City has rich tourism resources and good location advantages, how to combine culture and tourism, need to build and plan carefully. Huayi Brothers is a cultural industry for the world; I hope that the enterprise will show its strength to the world and, at the same time, it will better promote Yining City.

In the International Academician Association headquarters in Beijing Fangshan District Xinggong Park, the delegation and the China International Association for the Promotion of Science and Technology International Academician Association of relevant persons in charge of communication and discussion. Li Wei introduced the basic situation of Yining City and the development needs of specific industries. Sun Cheng, Chairman of the Executive Committee of the International Academician Association, introduced the basic situation of the International Academician Association. The two sides also docked and exchanged ideas on building scientific and technological innovation platforms, introducing academician expert teams and transforming landed crop varieties, and signed a letter of intent to cooperate.

On the afternoon of February 14, the delegation

came to Beijing, a not cultural media limited company, and the company's relevant person in charge of the cooperation for exchange and discussion.

Company chairman Wu Fengwei introduced the basic situation of the company and the basic situation of the TV series "This Side of the Landscape"; Zheng Xiaoming, deputy secretary of the municipal party committee and head of the Nanjing Aid Group, introduced the promotion of investment and cooperation projects between the two sides; Vice Mayor Xia Zhiguo signed a letter of intent on behalf of the municipal government on TV series shooting and film base construction and operation. Wang Meng, a famous writer and people's artist and former Minister of Culture, attended the day's activities.

On the same day, the delegation also visited the Beijing headquarters of China Qinghua Energy Group Co. On behalf of the municipal party committee and government, Li Wei expressed his gratitude to China Qinghua Group, which

has supported the development of Yining City for many years. Group Chairman Huo Qinghua explained the industrial situation of the group and gave an outlook on the subsequent development of the group.

China Qinghua Energy Group Co., Ltd. is a large specialized and modernized processing enterprise with the production of coal-based clean energy and coal-based fine chemical products as its core. During the visit, Li Wei said that Qinghua Group is a practical and responsible enterprise, and what the enterprise needs is what the government should do. The Yining Municipal Party Committee and Municipal Government will do their best to cooperate and complete the work, and both sides will work together to create brilliant achievements again.
